Full-Stack Developer with 2+ years of experience delivering scalable web solutions in real estate, hospitality, and textiles. Proficient in React.js, Next.js, and Node.js; skilled in building intuitive UIs and optimizing backend performance.

PROFESSIONAL EXPERIENCE

Full-Stack Developer (Internship)

Sep 2024 – Dec 2024

RABSNET Solution

Mumbai

- ★ Developed and maintained web applications for the real estate, finance, and hospitality sectors.
- ★ Built responsive, high-performance platforms using React.js, Next.js, Node.js, and MySQL.
- ★ Delivered key projects, including Danube Properties (real estate), Durlax CRM (textiles), and InvoiceWale.

Senior Software Implementation Engineer

Sep 2022 – Aug 2024

Spine Technologies Pvt. Ltd.

Mumbai

- ★ Implemented Payroll and HRMS solutions for 50+ clients, ensuring seamless operations.
- ★ Customized letters and payslips using HTML and CSS to streamline client documentation.
- ★ Integrated biometric attendance data with HRMS software for clients, including MGM Hospital and PR Hyundai, using SQL queries and Windows API.

EDUCATION

B.Sc. in Information Technology

Bhavans College, Andheri West

CGPA: 9.5/10

Jun 2019 – May 2022

PROJECTS

Danube Properties - Real Estate (Dubai)

- ★ Designed and developed a high-performance real estate portal using Next.js, tailored to client requirements.
- ★ Created a modular architecture to enhance code reusability and maintainability across the application.
- ★ Implemented server-side rendering (SSR) to improve SEO rankings and reduce page load times for a better user experience.

InvoiceWale – Invoice Firm (India)

- ★ Designed and deployed a robust invoicing platform tailored for businesses, using React.js for a dynamic and interactive user experience.
- ★ Ensured a responsive and visually appealing design with Material UI and Bootstrap for seamless usage across devices.
- ★ Implemented dynamic components like Advanced Search and Filters throughout the application.

Durlax CRM – Textiles (India)

- ★ Developed a comprehensive Invoice Module in React.js for efficient inventory management and calculations.
- ★ Integrated MySQL for backend operations and used React Query for data fetching and state management.
- ★ Ensured cross-browser compatibility with Bootstrap.
- ★ Enhanced user experience with libraries such as Material UI, Lucid Icon, and Font Awesome.
